Raytheon Ktech

- Raytheon Ktech is a leading manufacturer of telemetry and communications system antenna systems and ancillary support equipment such as RF multicouplers and digital signal strength recorders

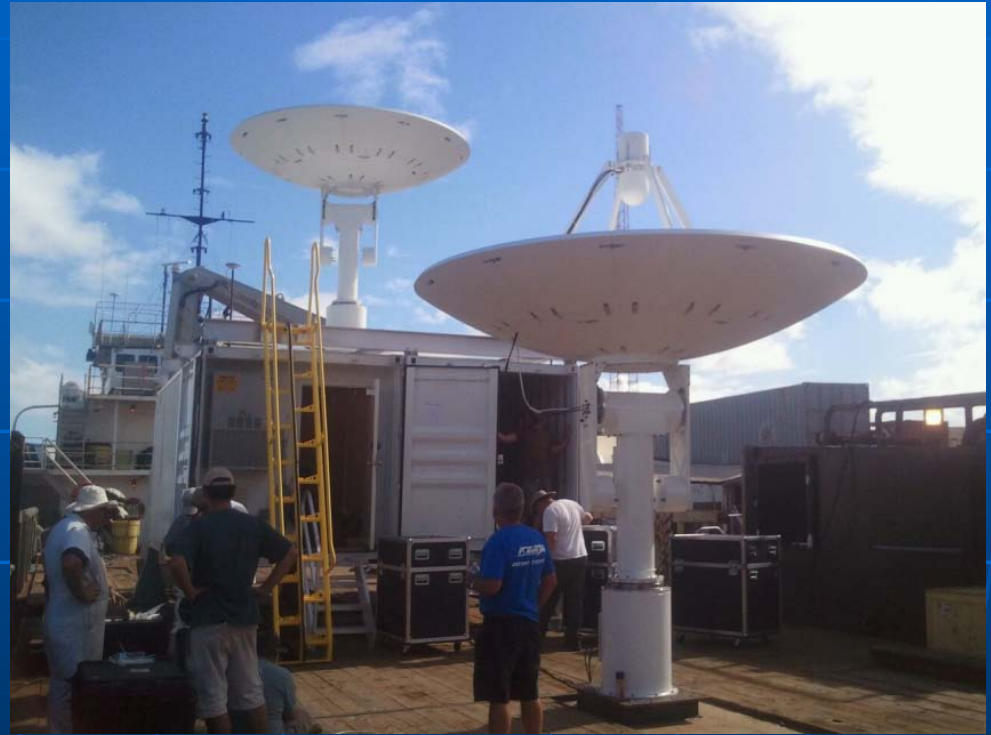

C-Band Antenna System

- Raytheon Ktech offers a full line of tri-band capable (L, S, & C) antenna systems and autotracking feeds
 - Single feed assembly for all three bands
 - Single set of RF coaxial lines from feed
 - Small form factor
 - Matches most existing L/S feed footprints
 - Easy to retrofit existing systems
 - Inexpensive

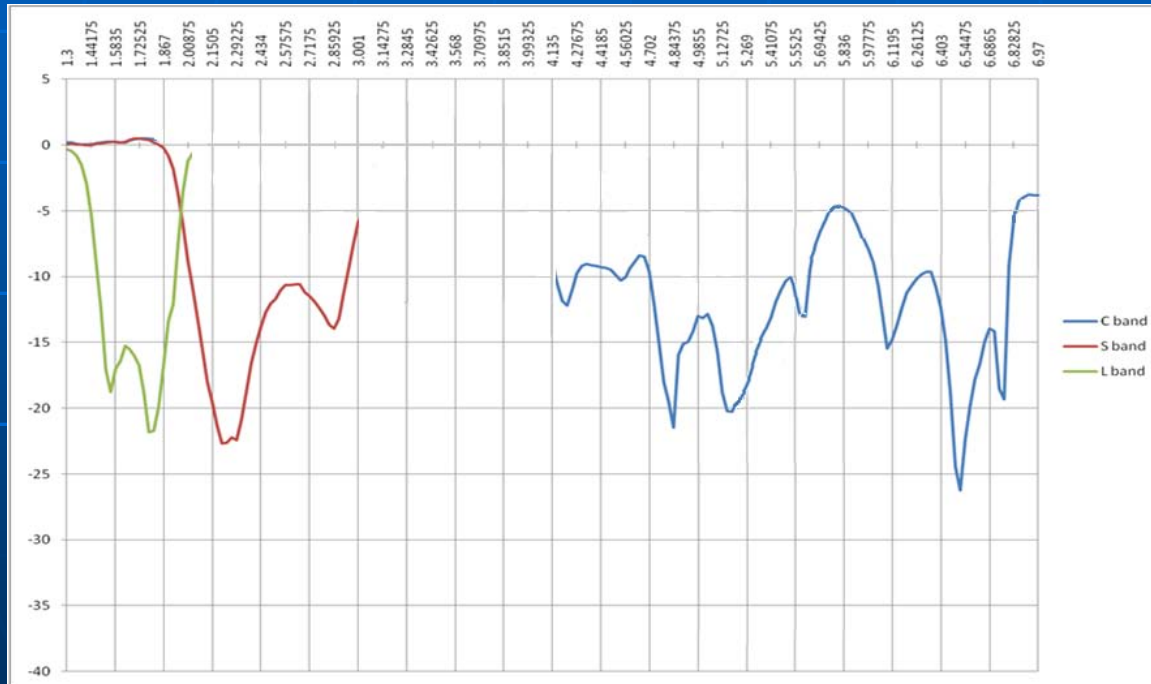

C-Band Antenna System

Proven Systems – Delivered and Demonstrated in the Field
